

GUIDE TO

DOUBLE DOWN MADNESS BLACKJACK PUSH 22

Introducing Double Down Madness™ Blackjack, the ultimate twist to the traditional game of blackjack. Each player receives one card initially and can hit and double down to boost payouts. No splitting or surrender is allowed and the dealer hits soft 17. Double Down Madness Blackjack also offers the optional Push 22 bonus wager.

GETTING STARTED

Place your mandatory wager in the betting circle and the Push 22 bonus wager. The Dealer will follow house blackjack procedure, dealing each player one face-up card and themselves one face-up and one face-down card. Insurance is offered if the dealer's up card is an Ace. If the dealer has blackjack, all wagers lose and no second card is dealt.

DECISIONS

You have three choices:

- 1. Stand:** Maintain the current hand value.
- 2. Hit:** Request an additional card.
- 3. Double Down:** Double the initial/previous wager(s).

HITTING & DOUBLING DOWN

You may hit and double down with each card you receive until you decide to stand or your hand busts. When doubling down, you can match up to the amount already in play.

PLAYER ACE

If your initial starting card is an Ace, you will only receive one card whether you hit or double.

BLACKJACK

If you double down and receive a blackjack, you will receive the posted blackjack odds for both the main wager and double down amount. See payable for odds.

PUSH 22

If the dealer has a point total of 22, any main wagers and doubles will push. The Push 22 side bet wins if the dealer has a point total of 22; otherwise, it loses. See payable for odds.

Note: Player blackjacks are paid before the dealer hits out their hand, so they are exempt from the Push 22 rule.
